

Who Audits the AI Chemist? A Cross-Vendor, Git-Native Supervision Loop, Deployed

Abstract

[TODO: 150–180 word deployment-first abstract.]

1 Motivation: a running pipeline nobody reviews

[TODO 0.8p]

2 The CrossAudit protocol in brief

[TODO 1.5p around Figure 1; invariants one line each.]

3 Deployment observations

[TODO 1.0p]

4 An exploratory seeded-defect trial, audited and corrected

[TODO 1.2p]

5 Related work and takeaways

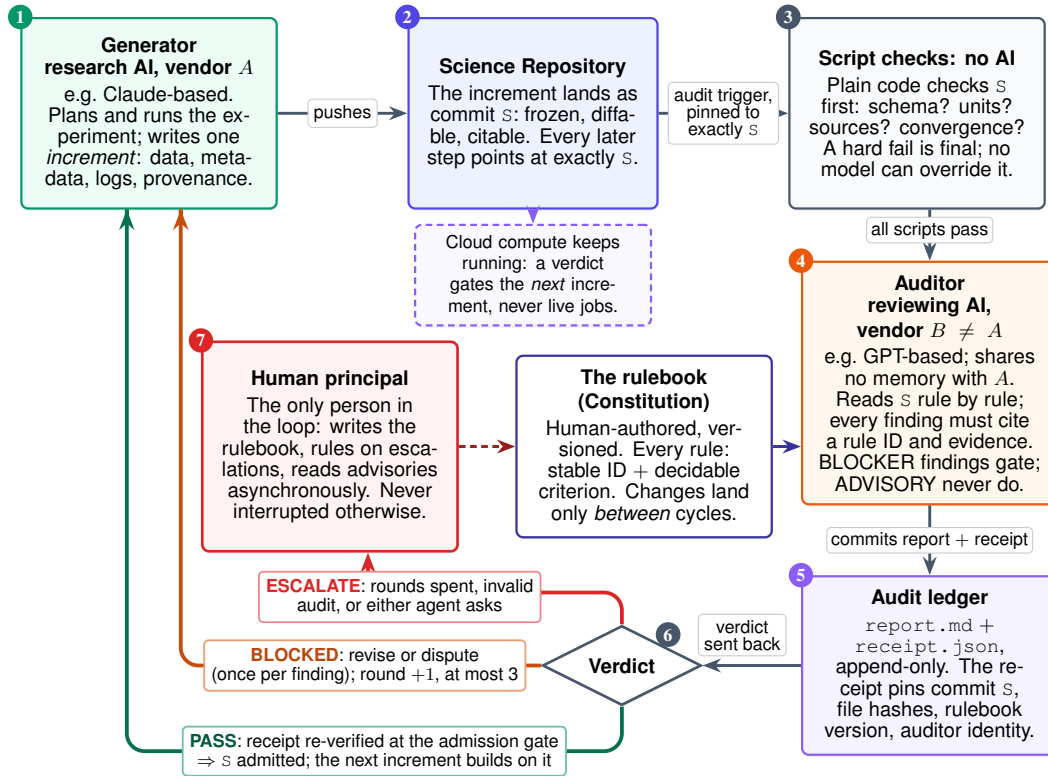

[TODO 0.5p]

A The eight invariants in full

[TODO]

B Related-systems comparison

	Critic from a different vendor	Versioned, decidable rules	Replayable public ledger	Deterministic precedence	Bounded loop, escalation
The AI Scientist [?]	–	–	~	–	~
AI co-scientist [?]	–	–	–	–	~
PoLL judge panels [?]	•	–	–	–	–
Cross-vendor review advice (§??)	•	–	~	–	–
